

Falcon Point Capital Receives \$110 Million Investment from an International Pension Plan into its Small Cap Strategy.

<u>SAN FRANCISCO</u>, Nov/PRNewswire/ -- Falcon Point Capital, LLC of San Francisco announces today that it recently received a \$110 million investment into the firm's Small Cap Growth Strategy from an international pension plan. The Strategy is one of several that use Falcon Point's disciplined, team-based investment process.

Falcon Point Senior Managing Director James Bitzer said, "Falcon Point is pleased to be selected to manage a portion of this large corporation's pension plan. Falcon Point Capital's focus, quality bias, and disciplined investment approach are hallmarks of the firm. Smaller cap stocks are the least efficient segment of the U.S. equity markets and an ideal area for active management." Senior Portfolio Manager Michael Thomas said, "By deploying our team-based, fundamental research process, Falcon Point looks forward to continuing to produce positive results for many years to come."

Falcon Point's Small Cap Strategy has generated attractive risk-adjusted returns since inception. Firm assets are approximately \$700 million and the Strategy has about \$500 million of assets under management at November 6th, 2015. The firm expects to close the Small Cap Strategy to new investors in the \$1.3 billion range.
